Personal Travel Blog on IBM Cloud Static Web Apps

Project Objective: The primary objective of this project is to create a personal travel blog hosted on IBM Cloud Static Web Apps.

Design Thinking:

Content Planning:

Structure: The blog will be organized into several key sections, including:

Travel Stories: Captivating narratives of personal travel experiences.

Travel Tips: Practical advice and recommendations for fellow travelers.

Photo Gallery: A visually engaging collection of photos from different destinations.

Content Creation:

Travel Stories: These will be well-crafted narratives that transport readers to the destinations, filled with personal anecdotes and unique experiences.

Travel Tips: Practical advice on topics like packing, budgeting, itinerary planning, and cultural insights.

Photo Gallery: Carefully selected and edited photos that evoke the spirit of each location.

Website Design:

Aesthetics: The blog's design will be visually appealing, using a clean and modern layout.

User-Friendly: The website will be easy to navigate, with a clear menu and intuitive user interface.

Responsive: It will be designed to work seamlessly on various devices, from desktops to mobile phones.

Interactivity: JavaScript may be incorporated to add interactive elements like image sliders and pop-up maps.

IBM Cloud Setup:

Account Creation: An IBM Cloud account will be created to host the static web app.

Static Web App: We will configure and deploy the blog as a static web app on IBM Cloud, ensuring reliability and scalability.

Development Phases:

Personal Blog Website Using Html,Css and Js:

Exploring the Colosseum in Rome

My journey to the ancient city of Rome was a thrilling adventure, but the highlight of my trip was undoubtedly the visit to the awe-inspiring Colosseum. The moment I laid eyes on this architectural wonder, I was transported back in time to the days of gladiators and grand spectacles.

Statue of Liberty Adventure

My journey to the vibrant city of New York was nothing short of magical, and one of the most iconic experiences I had was visiting the Statue of Liberty. Standing proudly in the waters of New York Harbor, Lady Liberty greeted me with her torch held high, symbolizing freedom and hope.

Personal Travel Blog Website Deployed on IBM CLOUD Using OBJECT STORAGE SERVICE.

Public Url To Access:

https://cad-personaltravelblog.s3.ams03.cloud-object-storage.appdomain.cloud/index.html

We successfully completed the development of a basic personal travel blog website utilizing a combination of HTML, CSS, and JavaScript. To make our website accessible to the public, we created an IBM Cloud account, leveraged the Object Storage feature, established a dedicated bucket, and seamlessly deployed our travel blog website, granting it the necessary public access.
